

CODE YUDH – BATTLE OF CODES

24-Hour Software Development Hackathon

27–28 October 2026

Chandigarh University, Mohali

Bring your ideas. Build your solution. Battle with code.

A hybrid hackathon bringing together creative, technically skilled, and innovative minds to solve real-world challenges through technology.

Team Size: 3–4 Members

Eligibility: Undergraduate Engineering Students

Format: Hybrid

ABOUT THE HACKATHON

Where Ideas Meet Innovation

Code Yudh – Battle of Codes is a software development hackathon organized by the Department of Computer Science and Engineering, Chandigarh University.

The hackathon challenges participants to identify real-world problems, develop innovative technology-driven solutions, and transform their ideas into functional prototypes.

The event follows a hybrid format, beginning with an online PPT screening round and culminating in an intense 24-hour offline hackathon at Chandigarh University.

Participants will have the opportunity to collaborate, build, test, refine, and present their solutions while interacting with mentors, industry professionals, faculty members, and fellow innovators.

WHY CODE YUDH?

Foster Innovation

Explore emerging technologies and develop innovative solutions to real-world problems.

Solve Real Problems

Apply your technical, analytical, and creative skills to tackle complex challenges.

Collaborate & Learn

Work as a team, share knowledge, learn from peers, and collaborate across disciplines.

Explore Emerging Technologies

Build with technologies such as AI/ML, Cloud Computing, IoT, Cybersecurity, Blockchain, Web Technologies, and Mobile Technologies.

Build Something Real

Turn your idea into a functional and demonstrable prototype during an intensive 24-hour challenge.

Connect With Experts

Interact with mentors, industry professionals, faculty members, innovators, and fellow participants.

EVENT AT A GLANCE

Event: Code Yudh – Battle of Codes

Format: Hybrid

Team Size: 3–4 Members

Eligibility: Undergraduate Engineering Students

Phase 1: Online PPT Submission & Screening

Phase 2: Offline 24-Hour Hackathon

Final Dates: 27–28 October 2026

Venue: Chandigarh University, Mohali

Duration: 24 Hours

Activities: Software Development, Quizzes & Treasure Hunt

THE JOURNEY

Two Phases. One Battle.

PHASE 01 – ONLINE SCREENING

PPT Submission & Screening

11 October 2026, 12:00 AM IST

to

14 October 2026, 11:59 PM IST

Submit a PPT outlining your:

- Problem Statement
- Proposed Solution
- Innovation
- Technology Approach

You may also include:

- Prototype
- Demo
- GitHub Link

Evaluation Criteria:

- Innovation
- Feasibility
- Technical Approach
- Potential Impact

Shortlisted teams will advance to the offline final round.

PHASE 02 – OFFLINE FINALE

24-Hour Hackathon

27 October 2026, 08:30 AM IST

to

28 October 2026, 05:00 PM IST

Shortlisted teams will come to Chandigarh University for an intensive 24-hour development challenge.

Build. Test. Refine. Demonstrate.

Teams will transform their proposed ideas into functional and demonstrable prototypes with support from mentors.

Final Evaluation:

- Innovation
- Implementation
- Functionality
- Impact

HACKATHON TRACKS

Choose Your Battlefield

The following tracks are tentative.

01 – SMART & SUSTAINABLE CITIES

Innovative solutions for urban development, smart governance, digital public services, mobility, waste management, safety, and sustainable infrastructure.

Focus:

AI

IoT

Geospatial Technology

CivicTech

Smart Mobility

E-Governance

02 – AGRITECH & RURAL TRANSFORMATION

Technology-driven solutions aimed at improving agricultural productivity, farmer livelihoods, rural connectivity, and supply-chain efficiency.

Focus:

Precision Farming

AI/ML

Drones

IoT

Soil Health

Agri-FinTech

Supply Chain

03 – HEALTHCARE, WELLBEING & ASSISTIVE TECHNOLOGIES

Affordable and accessible technology solutions addressing healthcare delivery, preventive care, wellness, accessibility, and assistive needs.

Focus:

MedTech

AI/ML

Telemedicine

HealthTech

Assistive Technology

Mental Wellness

04 – EDUCATION, SKILLING & FUTURE OF WORK

Innovative platforms and technologies that improve learning, skill development, employability, and the future of education and work.

Focus:

EdTech

AI Tutors

Personalized Learning

VR/AR

Skill Platforms

CareerTech

05 – ENERGY, ENVIRONMENT & CLIMATE ACTION

Technology-driven solutions for environmental sustainability, energy efficiency, climate resilience, and conservation.

Focus:

Renewable Energy

EV

Carbon Management

Waste Management

Circular Economy

ClimateTech

06 – OPEN INNOVATION

An open-ended track for bold, technology-driven ideas that address real-world problems beyond the defined hackathon themes.

Identify meaningful challenges and develop innovative, scalable, and practical solutions across any domain.

Focus:

AI/ML

Generative AI

Web & Mobile Technologies

IoT

Blockchain

Cloud Computing

Robotics

Data Science

Emerging Technologies

TECHNOLOGY PLAYGROUND

Participants can explore a wide range of modern technologies.

Artificial Intelligence

AI/ML

Generative AI

Data Science

Connected Technologies

IoT

Smart Mobility

Geospatial Technology

Digital Infrastructure

Cloud Computing

Blockchain

Cybersecurity

Product Development

Web Technologies

Mobile Technologies

Emerging Technologies

Robotics

VR/AR

Assistive Technology

WHAT HAPPENS DURING THE 24 HOURS?

FROM IDEA TO IMPACT

01 – BUILD

Transform your proposed idea into a working solution.

02 – TEST

Test your implementation and identify issues.

03 – REFINE

Improve your solution based on testing and development.

04 – DEMONSTRATE

Present your functional prototype before the judging panel.

05 – GET EVALUATED

Your project will be evaluated on innovation, implementation, functionality, and impact.

EVALUATION

PHASE 1 – PPT SCREENING

Innovation

How innovative is the proposed solution?

Feasibility

Can the proposed solution realistically be developed and implemented?

Technical Approach

How effectively does the proposed technology approach address the problem?

Potential Impact

What potential impact can the proposed solution create?

PHASE 2 – FINAL HACKATHON

Innovation

The originality and innovative nature of the solution.

Implementation

How effectively the proposed solution has been developed.

Functionality

The functionality and demonstration of the developed prototype.

Impact

The potential impact of the final solution.

WHO CAN PARTICIPATE?

Eligibility

Undergraduate Engineering Students

Team Size

3–4 Members per Team

Bring together your teammates and prepare to build.

PARTICIPANT OUTCOMES

What You'll Gain

Hands-On Experience

Develop technology-driven solutions to real-world challenges.

Technical Growth

Enhance your technical knowledge and coding abilities.

Problem-Solving

Strengthen your analytical and problem-solving skills.

Teamwork

Experience collaborative development during an intensive 24-hour challenge.

Networking

Connect with industry experts, mentors, innovators, faculty members, and fellow participants.

Prototype Development

Transform your initial idea into a functional and demonstrable solution.

Emerging Technology Exposure

Explore modern technologies, innovation methodologies, and practical software development practices.

MENTORSHIP

Build With Guidance

Shortlisted teams participating in the offline final round will receive support from mentors during the hackathon.

Use the 24-hour development experience to:

Build → Test → Refine → Demonstrate

ACTIVITIES

More Than Just Coding

Software Development

The core of Code Yudh – build, test, refine, and demonstrate your technology-driven solution.

Quizzes & Treasure Hunt

Additional activities associated with the Code Yudh – Battle of Codes event.

IMPORTANT DATES

11 OCTOBER 2026

Phase 1 Opens

PPT Submission & Screening Begins

12:00 AM IST

14 OCTOBER 2026

Phase 1 Closes

PPT Submission Deadline

11:59 PM IST

27 OCTOBER 2026

Final Hackathon Begins

Offline 24-Hour Hackathon

08:30 AM IST

28 OCTOBER 2026

Final Hackathon Ends

05:00 PM IST

FINAL EVALUATION

VENUE

Chandigarh University

Chandigarh University, Mohali

27–28 October 2026

The shortlisted teams will participate in the offline 24-hour final hackathon at Chandigarh University.

FAQ

Who can participate?

The hackathon is open to undergraduate engineering students.

What is the team size?

Each team must consist of 3–4 members.

What is the format of the hackathon?

Code Yudh follows a hybrid format consisting of an online PPT screening round followed by an offline 24-hour final hackathon.

What happens in Phase 1?

Teams submit a PPT describing their problem statement, proposed solution, innovation, and technology approach.

Can we submit a prototype or GitHub link?

Yes. Teams may optionally include a prototype, demo, or GitHub link with their PPT.

How are Phase 1 submissions evaluated?

Submissions are evaluated based on:

- Innovation
- Feasibility
- Technical Approach
- Potential Impact

What happens after Phase 1?

Shortlisted teams advance to the offline final round at Chandigarh University.

How long is the final hackathon?

The final hackathon is a 24-hour offline development challenge.

When is the final hackathon?

27–28 October 2026.

Where will the final hackathon take place?

At Chandigarh University, Mohali.

What will teams do during the final round?

Teams will build, test, refine, and demonstrate their proposed solutions with support from mentors.

How will the final projects be evaluated?

Final projects will be evaluated based on:

- Innovation
- Implementation
- Functionality
- Impact

What technologies can participants use?

The provided technology areas include AI/ML, Generative AI, Cloud Computing, IoT, Cybersecurity, Blockchain, Web & Mobile Technologies, Robotics, Data Science, and other emerging technologies.

What are the hackathon tracks?

The tentative tracks are:

1. Smart & Sustainable Cities
2. AgriTech & Rural Transformation
3. Healthcare, Wellbeing & Assistive Technologies
4. Education, Skilling & Future of Work
5. Energy, Environment & Climate Action
6. Open Innovation

FINAL CTA

READY FOR THE BATTLE?

Your idea is only the beginning.

Form your team.

Choose your battlefield.

Build your solution.

Take on Code Yudh.
